MEET THE LUNA

The Luna photo booth is the ultimate all-rounder, perfect for any event. There are no limits or compromises with the Luna.

Developed based off our experience at over 10,000 events per year, the Luna is designed by event professionals for event professionals.

HARDWARE

DURABILITY
Luna photo booths are manufactured in North America using premium materials including stainless steel and aircraft grade aluminum, and will withstand heavy use at countless events.

PORTABILITY
The Luna photo booths are exceptionally lightweight and can be quickly setup and taken down by one attendant. The Lunas are designed to fit into almost any vehicle and are small enough to be operated even in the tightest spaces.

RELIABILITY
We build photo booths that you can depend on. In the rare occurrence that something needs to be replaced, our photo booths are modular which allows individual components to be easily swapped out.

SOFTWARE FEATURES

The Luna's software offers the most interactive features in the market while encouraging social sharing.

PHOTO OVERLAYS

LIVE PHOTO AND LIVE VIDEO GREEN SCREENS

VIDEO, BOOMERANG AND ANIMATIONS

PHOTO COLLAGES

SOCIAL SHARING

(SMS / EMAIL / SOCIAL MEDIA)

CREATIVE FILTERS

DIGITAL BRANDING

Customize everything from fun green screen backgrounds to dynamic GIF animations, as well as emails and your photo Sharing Site. Create your own on-brand imagery or work with our Design Team to achieve your vision. Creating unique visuals is just another great way to increase guest sharing and reach more people.

INSTANT SHARING

Guests can text their photos from the Luna by entering their information on the screen or scanning a QR code. They'll receive a message with a link to their photo on our Sharing Site. The look of emails and the Sharing Site can customized to match your brand or event theme, and CTA (call-to-action) buttons and links can be added and used to drive guests to a donation page, online store, your photo booth booking page or to sponsor's websites. You can choose whether to provide guests with access to the entire event gallery
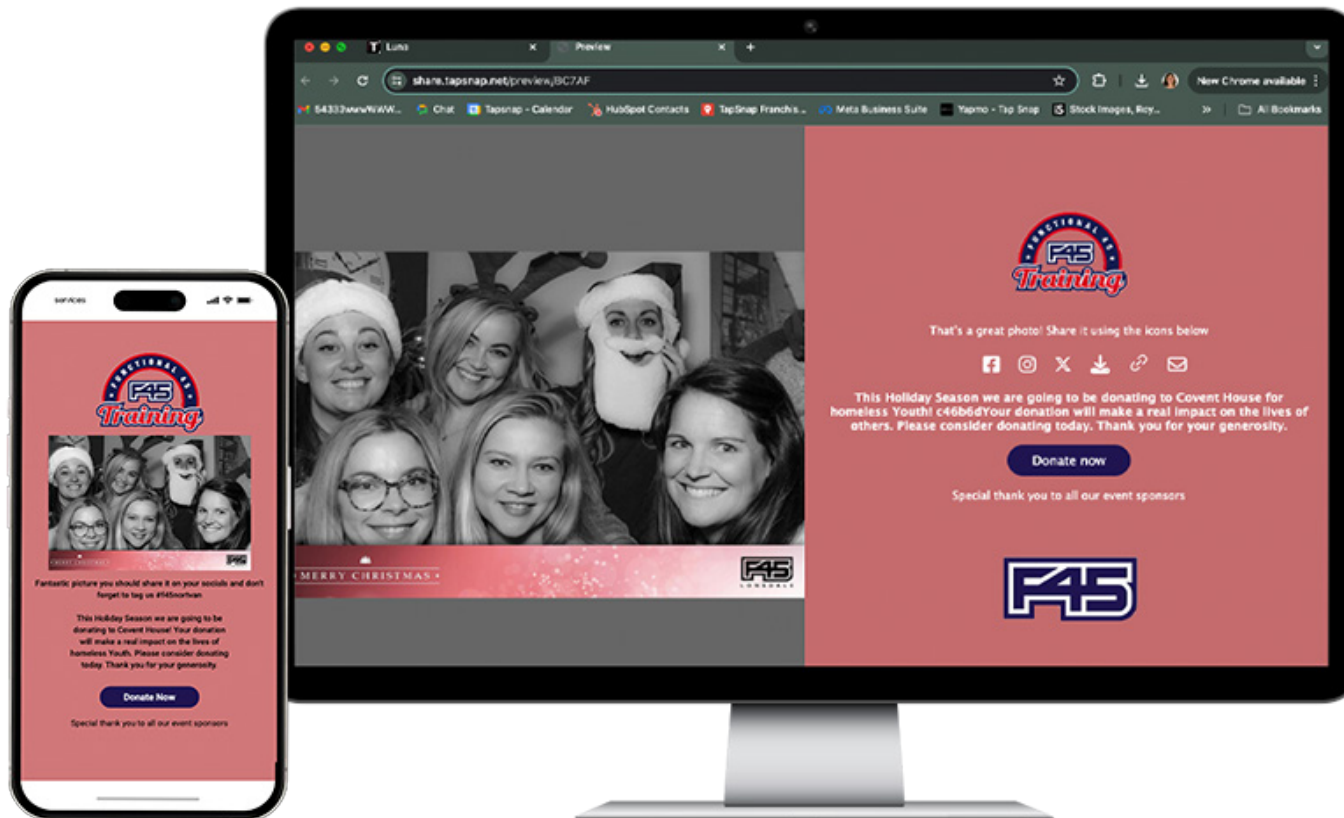

CTAs and links can be added to the email and gallery and are a great way to drive guests to a donation page, an online store, your photo booth booking page, or link to sponsors.
(Single gallery images only)

OPERATE REMOTELY WITH THE **LUNA CLOUD**

Set up your event graphics and other customizations remotely, and view photos and data in real-time from the Luna cloud. Being able to manage your Luna remotely makes it easy for you to operate multiple events at once or make quick changes on-the-go from any computer.

MORE THAN A
PHOTO BOOTH

24/7 TECHNICAL SUPPORT

TapSnap offers around-the-clock technical support, managed by an in-house team of experts who support over 10,000 events annually. Our support team can remotely take over a system to diagnose and fix any issues that may arise.

CREATIVE SERVICES TEAM

Our Creative Services Team is constantly collaborating with Luna owners and helping them achieve their vision. They can help you with anything from digital branding to awesome animations for specific activations.

# GET MORE WITH THE
LUNA MARKETING BASE

The marketing base features front and back branding panels, creating revenue generating opportunities. The integrated printer shelf minimizes space requirements and setup time.

SHARING STATION APP

Free with your Luna OS subscription. The Sharing Station is our solution for maximizing guest line ups throughout busy events. Photos taken by our Luna photo booths instantly sync to the Sharing Station's photo gallery, where they can be viewed or shared. Moving photo capturing and photo sharing/browsing to separate devices allows for more photos to be captured, while at the same time minimizing lineups.

You can ask survey questions with the Sharing Station. This is the perfect addition for corporate clients looking to get more out of their photo booth rental.
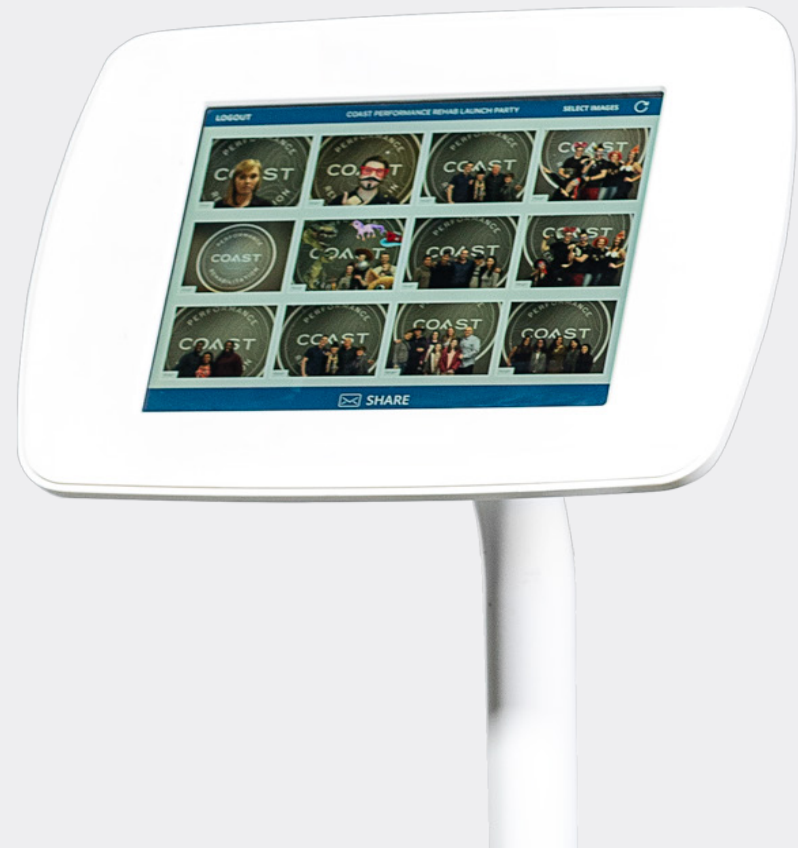

The Sharing Station stand shown is Lilitab floor model https://www.lilitab.com
